FTP

WHCC has produced thousands of award winning Competition Prints. Our clients have won countless Kodak Gallery Awards, Fuji Masterpiece Awards and the highest scoring prints within their state PPA organization.

All of our Competition Prints are printed on Kodak Professional Glossy or Metallic paper, which negates the need to add a high-gloss spray or laminate to your award winning image. Your prints are then mounted on white competition thickness matboard with the option to have the matboard edges blacked out. We provide all Competition Prints with the extra needed attention to detail and perfection.

Print Size	Glossy	Metallic	Competition Mount	Price
16x20	\$16.00	\$18.75	16x20	\$14.50
20x24	25.00	29.25	20x24	18.75

Fine Art Velvet

Fine Art Canvas

Fine Art Velvet paper is 100% cotton and acid free. It has a similar appearance and feel to a watercolor paper and looks great with a fine art image printed on it. Canon archival large format ink jet printers are used to print directly onto the Fine Art Velvet paper. Fine art velvet prints are less resistant to scratching and damage than traditional photographic prints and should be handled and displayed with care. Mounting options available for Fine Art Velvet Prints include styrene, masonite, and foamboard.

Our Fine Art Canvas prints are printed directly onto the canvas with Canon archival large format ink jet printers rather than bonded to the canvas like a traditional photographic print. All Fine Art Canvas prints are protected with a matte or semi-gloss laminate. The laminate protects from scuffs and scratches as well as provides UV protection. Mounting options available for Fine Art Canvas Prints include styrene, masonite, foamboard, and stretcher frame.

	8x10	11x14	16x20	20x24	20x30	24x30	30x40	40x60
