\$25 minimum order

## Pick-A-Pack

→ FTP

Perfect for the event photographer, our Pick-A-Pack system allows you to offer any combination of 8x10, 5x7, or 4x5 prints, including enlargements, buttons and magnets. Orders are organized by packages and add-on offerings for individual files. Most labs force you into 10 inch units for your special events photography, but not at WHCC. Our Pick-A-Pack system allows you to offer any combination of 8x10, 5x7, or 4x5 prints including enlargements. You can define up to ten packages and eight add-ons. Put your files into folders by packages and they are returned to you in exact order by package.

Prepare your files with borders, title overlays, graphic designs, team schedules, season results, or even coordinate the school or team colors in the design of your prints.

### Details

- Pick-A-Pack prints are only available on lustre and glossy paper.
- Prints will have the filename and studio name on the back of the print.
- Corrective services including retouching, artwork and color correction are not available.
- Units are returned in bulk, uncut. Die cutting is available for 8-up units only.
- Files should be sized to the largest print size at 300ppi.
- Files will be center cropped for smaller print sizes. Take this into consideration for head placement especially for buttons.

- Perfect for proms, sports or schools. Portrait and wedding orders don't qualify for this service.
