Float Wraps

ROES.whcc

A WHCC Float Wrap is a new, unique option to display images. Float Wraps are similar to Gallery Wraps or Standout mounted prints in that they add dimension by extending out from the wall. Float wraps are unique in that they appear to be floating on the wall with the main focus on the image! Create a modern display with a Float Wrap wall collage that is ready to hang once removed from the box!

Float Wraps are created by wrapping the photographic print or canvas print around masonite to create a thin wrap. The print or canvas is protected with a laminate and padding is added between the print and the masonite to give the front of the Float Wrap a raised, elegant look and feel. The back of the Float Wrap is complete with a black paper backing and a black 3/4" or 1 1/2" thick gatorboard block that allows the Float Wrap to extend out from the wall. The back of the block also contains drilled holes for hanging. Or, if you'd prefer to display your Float Wrap on an easel, you can order your wrap without the gatorboard block. Order Fine Art Canvas with a Semi-Gloss Laminate or Metallic Canvas with a High Gloss Laminate. Lustre and Metallic Photographic prints are finished with a Matte Laminate.

Details

- Float Wraps are backed with black paper and a black 3/4" or 1 1/2" thick gatorboard block that contains holes for hanging.

- Padding is inserted between the print and the masonite to provide added depth.

- All Float Wraps ship UPS Ground with shipping upgrades available.
- Corrective Services including basic retouching, artwork and color correction are not available.
- Extra space is needed all the way around the image for wrapping. Add an extra 1 inch to each side for a total of 2 extra inches to your final image size.
