

Color Quality and Consistency

With many years serving photographers, we know good color. Three years after bringing that to short-run printing for photographers, we are bringing it to longer run printing as well. Our press has a new, state-of-the-art system for distributing ink across the sheet for the best consistency card to card, plus we won't be 'ganging' your job up with many other postcards at the same time. Each press run will have just your job on press, so all controls for color and quality are made specifically for your job.

Competitive Pricing

To show our appreciation, we are offering discounts on long run printing based on your yearly spend with WHCC. All long run price quotes are done by email, please send the size and quantity to longrunprinting@whcc.com for a quote.

Free UPS Ground Shipping

All of the prices include free ground freight within the continental United States.

Turnaround Time

We strive to ship these orders as fast as possible. Most orders should ship out 3 days after receipt. Since we're not ganging up jobs, we don't need to wait for other similar jobs to come in so we can move the job to press as soon as possible.

8.5x11 Magazine 100# Text Paper	4 Page	8 Page	12 Page	16 Page	20 Page	24 Page

Long Run Offset Printing

WHCC's Long Run Offset Printing is an economical solution for higher quantity print runs with the same quality and consistency found with our short run digital printing. Using a Heidelberg offset printing press, we are able to provide competitive pricing, free UPS Ground shipping, and quick turnaround time with most orders shipping within 3 days.

Postcards, including popular 6x9, 6x11 and 8.5x11 sizes, are printed on a 14pt cover stock. The 8.5x11 magazines are printed on 100# text stock. 8.5x11 magazines consist of 11x17 sheets that are folded in half. A 4 page magazine is one 11x17 sheet folded in half. An 8 page magazine is two 11x17 sheets folded in half and stapled together. All Long Run Printing orders include aqueous coating on both sides for the highest quality appearance. Additional sizes and configurations are available by quote.

These prices and products are not available for production between November 15 and December 25.
